

Circular 19 – 2018

18 May 2018

Dear Resident

SECURITY – ACCESS VIA EXIT BOOM

It has been reported that a number of residents are accessing the village via the exit boom gate as they are impatient and become angry when they have to wait a few moments whilst the vehicle in front of them is being signed in.

This is dangerous and could cause an accident, not only with other vehicles but also pedestrians who are going on their walks. There have been a number of near misses. Under no circumstances must any resident use the exit to gain entrance to the village.

It was noted at the resident's meeting held on Wednesday, 16 May and management will be looking at ways to alleviate the problem. Your safety is our main concern and your cooperation in this regard is appreciated.

Yours sincerely

Christine Dempers
Village Manager
