

KEEP SAVING WATER!

Capetonians are urged to keep saving water. The combined total level of the dams is 56.9% of storage capacity. The average water consumption by Capetonians last week was 505 million litres a day – 55 million litres more than the target of 450 million litres a day set by the City of Cape Town.

The City warned that rainfall was difficult to predict with any confidence and urged Capetonians to carry on with their "amazing water-saving efforts to build a buffer for the summer months ahead"

The authorities will decide in early October, once the rainy season has ended, whether the severe Level 6B water restrictions in Cape Town will be relaxed, and if so, to what extent.

THURSDAY, 6 SEPTEMBER AT 11:00am
R80 per person

Please join us in the Bistro for a lovely morning Ladies' Brunch to celebrate the beginning of spring and a little warmer weather.

We also don't need a particular reason for a brunch party. The increasingly beautiful weather and the return of sundresses into our wardrobes is reason enough!

Please book with Andréa at reception by no later than noon on Monday, 3 September.

CITY OF CAPE TOWN CHANGES ELECTRICITY TARIFF & COST

The City of Cape Town has changed the electricity tariff structure and costs.

Effective 01 July, a new *Fixed Home User Tariff* of R150 per month has been introduced, irrespective of the electricity consumption. The Domestic Tariff has been reduced by 25 c/kWh for the first 600 units.

To ensure that households pay their share of these fixed costs irrespective of how much electricity they consume, the City aims to recover these costs through a fixed monthly service charge rather than as a component of a c/kWh charge.

UPDATE OF DEVELOPMENT ON BARN ROAD & STARKE ROAD

The house development in Barn Road (below left) is coming along quite well with roofs on twelve of the houses, the plaster work is done and houses are being prepped for the installation of windows. To all intents and purposes, the handover is on track for November and we can expect our new residents to move in early in the New Year.

The apartment development has cast the first portion of the basement concrete floor and the walls and columns are being finished off (aerial view bottom right).

All the world's a stage

All the world's a stage,
And all the men and women merely players;
They have their exits and their entrances,
And one man in his time plays many parts,
His acts being seven ages. At first, the infant,
Mewling and puking in the nurse's arms.
Then the whining schoolboy, with his satchel
And shining morning face, creeping like snail
Unwillingly to school. And then the lover,
Sighing like furnace, with a woeful ballad
Made to his mistress' eyebrow. Then a soldier,
Full of strange oaths and bearded like the pard,
Jealous in honor, sudden and quick in quarrel,
Seeking the bubble reputation
Even in the cannon's mouth. And then the
justice,
In fair round belly with good capon lined,
With eyes severe and beard of formal cut,
Full of wise saws and modern instances;
And so he plays his part. The sixth age shifts
Into the lean and slippered pantaloone,
With spectacles on nose and pouch on side;
His youthful hose, well saved, a world too wide
For his shrunk shank, and his big manly voice,
Turning again toward childish treble, pipes
And whistles in his sound. Last scene of all,
That ends this strange eventful history,
Is second childishness and mere oblivion,
Sans teeth, sans eyes, sans taste, sans
everything.
