

THURSDAY, 5 NOVEMBER
Guest Speaker
DR IAN GLASS

Dr Ian Glass was born in Dublin, Ireland. He is the author of six books, 220 scientific papers and many other articles. He has worked for Massachusetts Institute of Technology (MIT), California Institute of Technology, (CIT), the Royal Greenwich Observatory and the South African Astronomical Observatory.

He is passionate about astronomy and will be discussing the bicentenary of the Cape Observatory. During its 151 year existence, most of it as part of the Royal Navy, the Cape Observatory was responsible for some significant advances in astronomy.

Please book at Bistro or call Ext 200 by no later than 4pm on Tuesday, 3 November to book your seat as space is limited.
Please be seated by 9am.

The presentation will follow breakfast.
