

SUPPORT A HEALTHCARE WORKER

As a token of our appreciation for the immense efforts of the staff under challenging conditions, we want to give each member of the nursing staff a care package. In doing so, each of the staff will be reminded that we as a community are grateful for their efforts and dedication to us.

How does it work?

Put together a self-care package with a special note in a gift bag and deliver to Reception.

Self-Care Package Guidelines

Something for a coffee break (cappuccino, coffee sachets), biscuits, something sweet (chocolate) and something for tired hands (hand cream) with a personal note of thanks and encouragement or make a donation and we will buy and prep the care package gifts.

The care packages will be handed out in conjunction with National Good Samaritan Day on the 13th March 2021. Packages donated over and above our Evergreen staffing numbers, will be donated to Healthcare workers at local Clinics and Hospitals in your area.

All gifts and donations to be handed in by 9th March to your Village Reception.
