## **EVERGREEN BERGVLIET – VISITOR ACCESS**

Dear Residents,

Evergreen Bergvliet welcomes family and friends to our Village. While it is wonderful to have family and friends visit and this helps to grow the sense of community within Evergreen Bergvliet, we need to ensure that all the established protocols are adhered to. The health, safety and security of our residents remain our first priority.

We, therefore, require that the following be adhered to at all times for both long- and short-term visitors:

- As stipulated in the house rules any visitor making use of Village facilities or common areas must be accompanied by a resident.
- It is the responsibility of the resident to explain all the House Rules to their visitors and to ensure they are adhered to at all times.
- As many of the activities require the dropping of masks only fully vaccinated visitors will be allowed to join in such activities.
- Social events (e.g. Weekly Social Dinner) that are open to family and friends will be advertised as “open to visitors, friends and family”
- Any children visiting remain the responsibility of their parents and the resident(s) they join and must remain respectful of the company they are in with regards to noise and running, especially inside the Lifestyle Centre.
- All of the above will depend on Covid regulations allowing access into the village.
- The gym is off limits to persons under the age of 16 unless otherwise arranged with management.
- Facility Operating Hours:
  - Lifestyle Centre: 08h00 – 17h00 from Monday to Friday (Library, clinic, gym, lounge areas are accessible to residents outside of these hours)
  - Bistro: 08h00 – 17h00 Daily, Dinner served on Wednesdays only

I trust you find the above in order. Any deviations from the above must be approved by management.

Please feel free to contact me directly should you have any questions.

Kind Regards,

Shawn Ferreira  
Assistant Village Manager
