

This is Alan Baxter: Unit 14 : 0824428690; alan@ajbaxter.com

Margaret and I are happy in this unique, charming, safe and well located village.

However ELV Bergvliet village has some problems to be addressed, including:

1. Co-partner ELV are not honouring their side of "Partners for Life".
2. Residents substantial interest free loans are disregarded by ELV.
3. The structures for resolving the needs of residents are ineffective.
4. The growing concern that ELV are pushing Levies beyond affordability.

I am willing to join Rescom and do all in my power to serve the interests of all residents, and in particular work on the issues above.

I've held managerial positions in large corporations including IBM. Before retiring I was Chairman and CEO of a high tech company then called CMS. We were successful in a demanding industry, serving exacting clients such as FNB, Anglo Gold, Premier Milling and Nedbank. Our success was in part due to our insistence that we deliver on our promises.

I consider my attributes to be: My word is my bond, I meet problems or conflict head on, I am analytical, I am comfortable with change & managing it, I understand technology, I am goal driven, I plan before acting, and I believe in open communication.

My greatest joy comes from our family: 3 strong and independent Children, 6 Grandchildren growing too fast for comfort, and 2 cute Great Grandchildren.
