

## **RESUME' – BRIAN DALTON**

Carol and I moved into the apartments in December 2019 and have adapted to village life, become socially involved and are really enjoying living here.

I come from a long background of Human Resource Management, but moved away from pure HR about 25 years ago into more of a business management environment, with experience in mining, engineering, pharmaceutical manufacturing and retail. For the past 33 years I have run my own business consultancy firm and consulted with a wide scope of industries.

With regards to business and personal values I am happy in a problem-solving environment where I can bring my experience, integrity and “can do” attitude to bear. I welcome change and believe that no situation is perfect and therefore am always looking for better ways of doing things. I am results driven and have a “make it happen” approach to getting things done as quickly as possible, while still striving for a quality solution.

I firmly believe that my attributes and experience will be of benefit to the Rescom and during this past year during which I have served on Rescom, I am sure that I have added value to the residents by representing their interests and negotiating with management, both here in the village and at Evergreen head office.

I firmly believe too, that it is desirable to have a good relationship with everyone with whom I do business, but will stand by my principles that no relationship should be considered above service delivery, basic honesty and business ethics.

As a Rescom member, I will do my best to hold Evergreen management accountable for promises made and will strive to bring about a better village for all residents of our lovely Bergvliet village.
