### Candidate for Evergreen Roscom 2022

I am a newly arrived resident of 9 months residing in the apartment block and would like to serve our village community by being a member of our Rescom committee.

Prior to coming to the village I was chairman of the body corporate of the apartment block in Rondebosch where I lived. Over the 8 years on that committee we managed to completely upgrade the 45 year old building. I am an architect by training and profession and feel I can best help by fielding complaints and faults that have occurred to your house/apartment and the landscape structure. Hopefully I can point you in the right direction to take. Just a note to say I am not a plumber or electrician and recommend you contact ELV for those problems.

I already take a keen interest in the village public spaces such as the apartment block and the Club House social centre where I have added some input already.

In particular I hope to work with ELV with their proposed plans for the Clubhouse expansion, where I feel I can add some alternative ideas. As you have seen on the layout plan in the Centre they have offered a proposal that I believe is a compromise of the various functions it serves. Their first action on this structure is the replanning of the upstairs for their staff rooms. By being on the Rescom committee I hope to ask them to revisit the layout. I have some ideas that I feel would enhance space and be more appropriate for the various functions held there, even if this implementation does take a little more time.

I therefore ask for your gracious support and vote to nominate me to sit on the Rescom committee, and so to assist you in any way we can.

Yours

Richard Eastwick
