

**Circular 024-2018**

24 October 2018

Dear Residents,

**ERECTION OF ADDITIONAL HOARDING**

As a result of the construction project underway, there is a requirement for additional space for the construction operations. The only suitable place for this to be installed is in front of the Lifestyle Centre, adjacent to the construction site.

This will not interfere with traffic flow in front of the Lifestyle Centre. We request your understanding for any inconvenience this may cause. Since the erection of the hoarding, the existing traffic flow around the Lifestyle Centre it is more important than ever that our speed restriction is observed and to be aware of on-coming traffic.

During the construction period we will again pay special attention to security. An additional security guard has been placed within the construction area.

We request your patience during site establishment.

Kind regards

**Roy Martin**  
Village Manager
