

BROADACRES VILLAGE RESIDENTS COMMITTEE

COMMUNIQUE - 95

Presentation on New Methods of Watching TV

18 January 2019

Dear fellow Residents,

Please make a note in your diary if you wish to attend a presentation on several related topics concerning TV viewing.

The broad headings will be: -

- 1) An alternative to Fibre - Dependant on your needs, LTE Wi-Fi might be your better option.
- 2) DSTV and DSTV Now - Are you able to piggy back on other users and save money each month? Do you need a Dish and Decoder?
- 3) Demonstration of streaming.

I am being helped by Sue Jackson (you don't want to listen to me droning on) and have booked the corner of the Lifestyle Centre by the big TV on Tuesday, 5 February 2019 at 14.30pm. I hope to complete in about 90 minutes.

See you there, Chris Edwards.
