

MID TERM REPORT BACK - FEBRUARY 2019

Portfolio name: Safety/Security + Traffic

Leader: Graham Brickett

Portfolio Description/role

The main objective is to ensure that the safety and security of the village residents is maintained as best as possible at all times as well as liaison between the village residents and management regarding suggested upgrades and improvements wherever deemed necessary.

Significant achievements

1)Frederick road/Crab crossing culvert security upgrade.

Metal security grilles on both sides of the culvert reinforced and an infra-red motion detection camera installed focussed on the area inside the village.

2) Heron drive safety.

5 in all stop signs installed at the end of the internal roads leading into Heron Drive.

3)Unit Evacuation boards.

Laminated boards issued to the residents by the respective zone evacuation marshals.

Plans for the next half year

1)Heron Drive safety and speed control.

Additional 3 x 20kph speed signs facing the traffic going down Heron Drive.

2)Plover drive safety

4 in all stop signs at the end of the internal roads leading into Plover Drive and at the Plover Drive/Robin Lane corner.

3)Village speed control

Movable Solar Powered Radar Speed Notification sign and image recording system.

This monitors the speed of approaching traffic and displays the actual speed on the units' screen, furthermore allows for the identification of vehicles that exceed the programmed speed limit due to the image recording facility.
