

Circular 20-2019

14 June 2019

Dear Residents,

CONCRETE SPEED HUMPS

In an ongoing effort to improve our village and to ease traffic flow and curb the continual problem of speeding in the village, Work on the two concrete speed humps has reached the halfway point and we have been testing the newly completed section and have found a few issues with them.

Amendments to the design of the humps has been issued to accommodate access for walkers and ease of access for wheelchairs. Secondly, the existing new speed humps and the second part being constructed will be changed due to the fact that some vehicles have a clearance problem going over the humps.

Please be extra careful and drive slowly over the humps.

Thank you in advance of your cooperation.

Kind regards

Roy Martin
Village Manager
