

## BROADACRES VILLAGE RESIDENTS COMMITTEE

### COMMUNIQUÉ - 156

#### Delivery and release of the fish

11 September, 2019

*Dear residents,*

*The long-awaited fish will be arriving at about 12 noon on Friday 13 September and you're invited to attend their release.*

*The Fisheries, Hartebeespoort will be delivering the 2 600 fish paid for by Evergreen. Four different varieties of Tilapia and a fifth variety – Straight fin barb or Ghieliemienjie – will be released.*

*The fish will arrive in 1000 l tanks. They'll be scooped out into bags that will be placed in our pond. Once the water temperatures have equalized, the fish will be released.*

*The owner of the fishery, Casper Kruger will be on hand to supervise the process and to explain the role that each fish variety will play. He'll also be available to answer any questions you may have.*

*The whole process will take 30 – 60 minutes. We'll await the arrival of the fish in the open area below the top pond.*

*See you there!*

*Hennie du Preez,  
Chairman of ResCom.*

***P.S.:*** *If you plan to attend the release, please inform the Bistro that you may be a bit late for Friday's fish and chips lunch.*
