Library News

Dear Evergreeners,

Our library is truly magnificent. The shelves are packed with books, videos, CDs and magazines, all generous donations from residents. It's been said that one would need a lifetime to read all its treasures!

We often receive duplicate copies of books and videos that are already on our shelves. Also some items received are not suitable for our library. These items are donated, mostly to the SPCA or to other libraries in need.

However we'd like to give our staff members, [Evergreen, Reef, Security, Gardening, Unique Health], an opportunity to choose some of these surplus books, videos and CDs for their own use.

Therefore Evergreen Management has agreed that, on a day still to be decided, the library will place a selection of books, videos, CDs and magazines on a trestle table in front of the clubhouse. Staff will then be invited to choose 3-4 items for themselves.

We're rather excited about this outreach effort as many of the staff members, and their children, have limited or no access to the worlds of imagination, interest and knowledge that are contained in books, videos and CDs.
