**For your personalised free hearing test at Evergreen,**

**Thursday 21 May 2020 , please contact us for an appointment on:**

**010 5971950 / 0798916637**

**Tips for Wearing a Mask with Hearing Aids**

If you wear hearing aids, you may have difficulty wearing a protective mask around your ears. Here are some simple solutions to get the elastic off of your ears.

-  If you have a mask that goes around the head instead of over the ears, this is the simplest solution.
-  If your hair can be put in a bun, wrap the mask's elastic around the bun.
-  Sew two buttons onto a piece of ribbon to wear on the back of your head. Attach the mask's elastic to the buttons.
-  Sew two buttons onto a fabric headband above your ears and hook the mask's elastic onto the buttons.
