Communique No 206

9th July 2020

Vox Price Increase - Feed back

Dear residents,

While this is in the first instance addressed to those residents in Phase 3 who have fibre contracts with VOX, all other residents should take note of the unsympathetic attitude of VOX.

In my earlier communiqué on this subject I informed you that Garry Reed had passed all the information I had sent him onto the MD of VOX and was expecting a call-back. He didn't call but sent Garry a WhatsApp message informing him that the original promotion had ended, that VOX's infrastructure supplier (Frogfoot (owned by VOX)) had increased its prices and that that VOX was passing the increase on.

So, not much sympathy for the individual subscribers! All that Garry and I can recommend is that you get out there and see what offers you can get from other suppliers! The fibre reticulation for phase 3 is owned by Evergreen.

Chris Edwards has already done work on this and I'm sure he will be happy to share his results with you;

Hennie du Preez,
ResCom chairman.
