

Circular: 063

20 July 2020

Dear Residents,

It is with great sadness that I have to inform you that on Wednesday Thola Kasi reported not feeling well. Protocols were followed and she was immediately sent home to isolate and be tested. Her results came in on Friday and she tested positive for COVID19. She will remain in isolation for 14 days and we wish her a speedy recovery during this difficult time.

Our Protocols were immediately implemented and the entire working area where she had been working has been sanitized and traceability investigation done. Employees who were in contact with her have been sent home to isolate and monitor. Protocols were followed and we have confirmed that she was wearing her mask and face shield the entire time during her shift and that she did not have contact with any residents without the necessary 1,5-meter distancing.

Thola is isolating at home and we are checking in on her daily. She has a slight cough and loss of taste only. She is doing very well otherwise.

Your ever-caring Village Manager
