

RESCOM COMMUNIQUE

Communique No 217

12th November 2020

Hospitality Portfolio

Dear Residents,

I am happy to report that a resident has volunteered to lead the Hospitality portfolio, but more of that later. Before that, your ResCom had made the following decisions to make things easier for the portfolio leader:

- **To split the portfolio into 3 sections:**

- o Activities and outings: this will be split into two sub-sections:

- Activities: to arrange activities that can normally not be arranged by individual residents, e.g.: the Xmas market, Boule, croquet, street braais, etc.

- Outings: to theatres, concerts, places of interest, e.g.: Walter Sisulu Botanical Gardens, the Buddhist temple in Bronkhorstspuit, etc.

- o Meet and greet: teams of residents to meet, greet, and direct residents arriving in the Bistro for social dinners and functions to their tables.

- o Functions: This section will be responsible for organizing special Bistro-based celebrations such as Burns night, St. Patrick's Day, Xmas in July etc.

- **To discuss these proposals with all the people who had previously led the Hospitality portfolio to get the benefit of their experience.**

contd on page 2

A meeting with ladies who had previously led this portfolio and a friend was held last week. Arising from that meeting:

- Hospitality portfolio leader: Laurraine Lötter, Unit 77 has kindly volunteered to lead the portfolio - thank you Laurraine!

The AGM has been postponed to January so the ResCom members that were nominated and selected at the RAC have not yet been formally elected. I am proposing that we treat Laurraine's nomination as a late nomination and simply add her name to the list of ResCom members to be elected and confirmed at the AGM.

If there is any objection to my proposal, please let me know in writing before 27th November 2020.

- Meet and greet: Heather Mutch, Unit 80 has kindly volunteered to lead this section - thank you Heather! Many of you will shortly hear from Heather inviting you to join her team.
- Activities and outings: We will build this from the bottom-up by appealing to all of you to suggest both activities and outings to be considered. You will shortly hear more from Laurraine about this.
- Functions: We will also build this from the bottom-up and you will also shortly hear more about this from Laurraine.

Thank you,

Hennie du Preez,
ResCom chairman.
