

# CleanMyBed

'Allergy control starts in the bedroom.  
Protect and clean your bed.'

*Asthma and Allergy Foundation of America*

CleanMyBed is the only service of its kind to bring medical grade sanitising to your beds at home. Non-invasive, chemical free with no odours or residues, the process is seamless and your bed is ready for a clean night's sleep immediately.

**'There is something very comforting about climbing into a bed with pillows that have all been cleaned and sanitised to hospital standards with technology that is environmentally safe. No more imagining what's crawling around underneath me at night! A very satisfying process. I'm glad I heard that interview on Cape Talk Radio.'**

***Sue Butcher, Evergreen Resident***

By removing dust mite debris and all other allergen triggers, you can now sleep with complete peace of mind. No allergies means better quality of sleep and a stronger immune system.

Evergreen Club Members will all receive a 15% reduction and 25% when booked as a group of 6 or more members.
