

Circular 0143

02 July 2021

Dear Evergreen Residents,

EVDS REGISTRATION DELAY

The delay in you receiving your vaccination registration, is due to the fact that only Government Officials was eligible to register everyone on the EVDS system.

As at the 28th of June 2021 the Department of Health has issued Evergreen Health with full registration/login details, therefor making it possible for the Evergreen registration team to process your details onto the system. We will start capturing your vaccination detail from Monday 5 July 2021.

You will be notified by SMS to your telephone, confirming the administration of your 1st dose vaccination within 48 hours of us capturing your information. You will receive a SMS that reads as follows:

Dear Mr./Mrs. (**) you received our 01st of 2 doses of the Pfizer vaccine on 21 May 2021 at the Witkoppen Clinic.*** (Witkoppen Clinic is where Evergreen Health was registered as an outreach site.)

With this you will receive your Proof of vaccination code. You will receive your second dose appointment confirmation via SMS as well as soon as it has been confirmed.

Thank you for your patience while we capture this information.

Kind Regards

Wilma Swart
Village Manager
