

Circular 145

19 July 2021

Dear Resident,

COVID-19 2nd VACCINATION ROLL-OUT

We are delighted to inform you that our 2nd Vaccination will take place on the 19th and 20th of July 2021 at the Life Style Centre.

Most of you would have received your SMS confirming your first vaccination took place at Witkoppen Clinic. The EVDS system will start sending you locations of available sites where you can get your second vaccine. You can go to any of these sites with your vaccination card to get your second vaccine administered, or you can wait till the 19th of July and have it done here in the Village.

On the 19th when you come down to the Life Style Centre to be vaccinated, we will work on the EVDS database to process vaccinations. We have all the vaccination cards with your paperwork from the first vaccine with us and will complete these with your second vaccination and hand them over to you on the day.

Similar to last time, you will come down and register at the desk, you will then go through to receive your second vaccine.

You will then have to stay in the observation area where you will be observed for any side effects or reactions. We will have a paramedic on site to tend to any person who might experience any reactions.

Please keep in mind that if you have had your flu vaccine or pneumonia vaccine in the 30 days leading up to 19 July 2021 you cannot be vaccinated. You can also not go for a flu or pneumonia vaccine in the 30 days after receiving your COVID19 vaccine. If you have tested positive for COVID19, you will have to wait 30 days after your 14-day recovery period before you can get your second vaccine. Unfortunately, we cannot keep vaccines for residents who cannot make the 21st of May 2021 vaccination.

We will send out more communication next week to try and set different times for residents to make their way down to the Life Style Centre so that we have a smooth flow of people coming through to reduce waiting times.

Kind Regards

Wilma Swart
Village Manager
