

BROADACRES VILLAGE RESIDENTS COMMITTEE

COMMUNIQUE - 233

THANK YOU!!

22 July 2021.

Dear Wilma,

On behalf of all the residents, a sincere thank you to you for organizing the administration of not only the 2nd, but also the first 1st Pfizer BioNTech vaccination.

You have already thanked Evergreen Health and your admin staff for their participation in this exercise, but this is a special thank you to you, the person who organized it all! Without you taking the initiative with the Dept. of Health to administer the vaccines in our village in the first place, then collecting the vaccines from the Fourways clinic and organizing the actual vaccination experience so seamlessly, we would all have been standing in the cold in the queues outside a public or Discovery facility.

Thank you, we all very much appreciate your efforts!

Sincerely,

*Hennie du Preez
Chairman of ResCom*
