

2021 Photographic competition

Winners

Emotions

In life, also in photography, feelings come from within. They represent attitude, state of mind, they communicate a message. Photography is all about evoking feelings and emotions. They can be hidden and obscure, or specific and obvious. They flow right on the surface of a photograph, or swim below, awaiting discovery.

Well done to all our contestants we had some incredible entries this year, and choosing our winners was very difficult. So without further ado, here are our 2021 winners!
