

Circular 183-2021

29 December 2021

Dear Residents

Please find the latest circular from the Director General Health on the vaccination boosters.

For those of you that received the Pfizer Cominarty vaccine, you will be eligible to receive a booster dose of the same Pfizer Cominarty vaccine after an interval of six months (180 days) from the date you received the last or second vaccination. Only homologous boosting is currently permitted i.e. with the same shot as the primary vaccine.

The EVDS system will automatically work out when a person is eligible for their booster shot and the booster vaccinations do not require re-registration on EVDS.

Evergreen Health will be in touch with local health authorities in the New Year for vaccine stock to plan when our Residents and Staff will become eligible and when the stock will be available.

Regards

Roy Martin
Assistant Village Manager
