

Circular 014-2022

03 February 2022

Dear Residents,

SENSUS 2022 COMMENCES:

Statistics South Africa's nationwide population and housing census is set to take place from 3 to 28 February 2022.

This will be the first year where counting will happen digitally by fieldworkers or by citizen's registering their information on the website themselves.

You thus have a choice of whether you want to wait for a Stats SA Fieldworker to visit your home and capture your information, or whether you would like to submit your information yourself via the website.

Households who are opting for the fieldworker option can identify these fieldworkers as true Stats SA Fieldworkers by the census-branded ID card printed with the Stats SA logo with their photo, name and unique number and the district they have been assigned to work in.

Households can make use of the online Fieldworker Verification System, which can be accessed via: the Stats SA website. Choose the online Fieldworker Verification system and search by name, surname or verification number. You can also contact the call centre on 0800 110 248, to verify the legitimacy of the person knocking at your door.

Should you wish to rather go on line and submit your data yourself, you can do so by visiting the below Website: <u>https://getcounted.statssa.gov.za</u>

Below step by step screenshots of how to complete your information.

Regards

Wilma Swart Village Manager
