09 March 2022

Dear Residents

RE: COUNCIL APPROVAL REQUIRED FOR VARIATIONS PRIOR TO COMMENCEMENT WITH WORKS.

Please be advised that it is imperative that residents know that they are not allowed to proceed with any work without prior council approval. This is especially the case where patio roofs and enclosures are dealt with. Any and all variation requests must be addressed to Village Management who will advise on whether or not council approval is required.

It is vitally important that residents wait for the necessary approval before carrying out any work.

Please note that it is a criminal offence to commence with works without obtaining the necessary approval and that council can prosecute and issue a fine or pursue legal action in connection with any illegal work done.

Please note that Evergreen will hold the Life Right Holder personally liable for any fines, penalties or legal action issued by Council.

Kind Regards,

Wilma Swart
Village Manager
