NATIONAL GARDENING DAY

National Gardening Day on April 14th encourages gardeners and would-be gardeners to pick up a shovel and some seeds and kick-off a beautiful year of home-grown bounty.

Whether you want to grow vegetables, fruit, flowers, houseplants, or anything in between, National Gardening Day celebrates a satisfying pastime that you will enjoy for decades. Growing your own food also lets you provide fresh and natural nourishment for your family for a fraction of grocery store prices.

As many gardeners know, the benefits of gardening come from more than the produce. Spending time in the garden also provides physical activity and an opportunity to join with nature.

The observance is a call to action to get out and grow flower or vegetable gardens. No matter how you garden, plant in the ground, in containers, in straw bales or a square foot gardening box. Just garden!
