

Circular 040-2022

27 May 2022

Dear Residents,

Winter Grass cutting:

As we move into winter it is evident that the grass is not growing as fast anymore and we can start moving to mowing of lawns every second week only.

Should you however want your lawn mowed every week during winter, please contact Marius Viljoen to put you on the schedule for weekly mowing of your lawn.

The gardeners will start their winter programme from next week and will use extra time to start clearing the greenbelt of reeds and tall grass.

Regards

Wilma Swart
Village Manager
