Today I am semi-retired and remain interested and fascinated by Brands and Branding. And I love to share my life experience with others which have culminated in 2 books I have penned one on marriage and one on retirement.

Royston Knowles

First and foremost, I am a Christian and as such with God's help, seek to conduct both my private and business life in all honesty and integrity, and in accordance with Godly principles.

I have over 50 years' experience at senior executive board level: Managing Director, CEO and Chairman, locally and international. My first Managing Director position was at the age of 24, and since then I have been privileged to have maintained positions in the C-Suites of many local and international companies in a wide variety of countries and industries since, having had the honour and privilege of been headhunted for all but one of these executive roles.

I moved into my own business, Management Consulting, in 1993 and have been successful in securing some long-term contracts with large multinationals, and together with their executive teams we were successful in resolving the issues they had been grappling with and secured a path forward for growth and expansion for a sustainable and profitable future.
