

Circular 060-2022

22 July 2022

Dear Apartment Residents,

We have had lots of requests from residents wanting to purchase some kind of storage solution for basement parking areas.

To this effect the below storage units will be permitted in the basement parking areas. The standard will be that all storage units will need to be the same white colour and installed in Your allocated parking bay only.

Should you be interested in acquiring such a unit, I can forward you prices and a brochure.

Regards

Wilma Swart
Village Manager
