

Circular 52-2023

10 July 2023

Dear Residents

JOHANNESBURG WATER 44 HOUR SHUTDOWN THIS WEEK:

There is a planned shutdown which will affect a large number of areas and will occur from 7pm on Tuesday, 11 July 2023, to 3pm on Thursday, 13 July.

Rand Water said the shutdown is necessary to facilitate the tie-in between pipelines A19 and B14 with a new pipeline. It will also include the installation of isolation valves, and system upgrades at Rand Water's Eikenhof pump station. The disruption will affect the Johannesburg Water infrastructure supplied by the Eikenhof pump station, resulting in a complete water supply cut-off. Johannesburg Water said that the full recovery of the system after the shutdown may take up to five days or longer after supply has been restored.

The following 138 areas are expected to be impacted by the water outage:

Roodepoort and Randburg:

Bergbron / Claremont / Delarey / Whiteridge / Roodekrans (all ext) / Wilropark (all ext)
Helderkruin (all ext) / Constantia Kloof (all ext) / Allens Nek (all ext) / Weltevreden (all ext)
Florida Hills / Florida North / Discovery (all ext) / Selwyn / Florida Township / Horison
Horison View / Roodepoort North / Florida Park (all ext) / Constantia Park / Honeydew (all ext)
Zandspruit / Laserpark / Randpark Ridge / Cosmo City / Lanseria / Thabo Mbeki Informal settlement
/ Olivedale / Sundowner / Northwold / Boskruin / Bromhof / Kya Sands / Bloubosrand / Eagle
Canyon / Honeydew View / Poortview / Ruimsig / Wilgeheuwel / Princess / Grobler Park (all ext) /
Lindhaven / Little Falls / Harveston / Honeydew (all ext) / Parts of Northriding

Please note that Fourways and Kengies are not listed as one of the areas that will be affected by this water outage.

It will however not be a bad idea to ensure you have your extra water containers filled in the event that this shut down might have to be extended to our area.

Warm Regards

**Wilma Swart
