

A Note from your Rescom

VOTER REGISTRATION - COMMUNIQUE 32

My thanks to Dennis Allen for organising another successful voter registration morning on Thursday, 5th October.

Twenty residents were registered by the IEC, enabling them to vote in the 2024 general election.

ResCom aims to ensure that EVERY South African citizen in Evergreen Broadacres is correctly registered for this important election. Forty-eight new voters have been registered at Evergreen this year, and only ten residents still need to register or change their address.

The IEC has indicated that the voter roll will close for changes in February 2024. We will arrange for one more registration day in January next year before the closure to ensure that the remaining ten residents and any newcomers to the village get a chance to register.

Sales of houses and apartments are soaring, so many new residents will register here.

Once the election date has been promulgated in the Government Gazette, we will ask ALL voters to apply for and sign an application for a special vote. This will enable us to vote here in the clubhouse.

The IEC will visit the village to make it convenient to vote. No transport hassles or standing for hours in long queues in the hot sun!

Dennis Allen has an updated list of all residents currently registered here at Evergreen. Feel free to contact him with any questions or queries.
