

Circular 010-2024

09 February 2024

Dear Residents,

VILLAGE IRRIGATION SHUTDOWN:

We are experiencing problems with the irrigation booster pump and thus the system is not building up enough pressure.

As a result, we have had to switch irrigation off until we can get a technician out to look at the pump.

Please bear with us as we endeavour to resolve this problem.

Kind regards,

Wilma Swart
Village Manager
