

**Circular 012-2024**

13 February 2024

Dear Residents,

**VODACOM CELL SIGNAL IN THE VILLAGE:**

We have been consulting with Vodacom in an effort to improve the cell signal in the Village.

To this effect, Vodacom has been out to the Village to test signal strength in various parts of the Village and have gone back to make adjustments to the two main towers that provide signal to our Village. (All Saints Tower and the Broadacres tower off Lombardy)

They confirmed that these adjustments have been completed today.

We trust that you will see an improvement in your cell signal already. Should you however still experience really bad signal, please let us know so that we can point out these locations to them when they do their next follow up visit at the end of February 2024.

Kind regards,

**Wilma Swart**  
Village Manager

Let's work Together to make "The Village of Our Dreams"
