

**Circular 019-2024**

29 February 2024

Dear House Residents,

**VOLTANO METERING CHANGE OVER:**

Please can we request that you do not buy pre-paid tokens for electricity until we have converted the meters tomorrow. I don't know when the existing supplier is going to do key changes on their side, and if a resident buys tokens, and the meters are configured, these tokens won't work. Once Voltano get to a unit, and the pairing is complete, residents will be able to buy tokens again.

Kind regards,

**Wilma Swart**  
Village Manager
