

Circular 020-2024

29 February 2024

Dear House Residents,

VOLTANO METERING CHANGE OVER:

Voltano will have a team of 9 people on site tomorrow to go around and take pictures of all meters and their readings. They will need access to all the houses pre-paid meters to put their codes in to activate their access so you can load units purchased from them. Please keep an eye out for them doing their rounds in the Village.

For those people who have bought units from The Meterman but have not loaded them yet, please do so before midnight tonight to ensure they are accounted for.

Kind regards,

Wilma Swart
Village Manager
