

Circular 048-2024

22 May 2024

Dear Residents,

WASTE COLLECTION DISRUPTION DUE TO PROTEST ACTION

You might be aware that City of Johannesburg's refuse collection services have not been taking place for the past two week.

Pikitup who is contracted by the City of Johannesburg to collect waste is currently not operating due to unlawful protest action by workers whose contracts are ending.

Due to the blockades outside various depots, Pikitup is unable to leave their premises for safety reasons.

As refuse has not been collected last week or this week, Evergreen and the Frederick Road Association have enlisted the help of a private outside refuse removal company to remove the Village's waste. The removal will happen this afternoon and residents should be getting their bins back today or latest tomorrow morning. We will monitor the situation and arrange collection again for next week should it be necessary.

Although Pikitup is not collecting, our recycling collection is still taking place and all recycling was removed yesterday. Residents are urged to continue placing their recycling in the designated area.

Regards

Wilma Swart
Village Manager
