

Circular 057

21 June 2024

Dear Residents,

**SOLAR INSTALATION RESTRICTED ACCESS:**

We are in the installation phase of the solar panels having to be moved onto the roofs of the Lifestyle Centre and Apartment buildings. To this effect we have to cordon off the following areas:

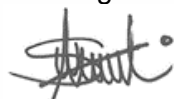

1. The yellow area from the main entrance of the LSC all the way around to the side patio and stairs will be closed off for the remainder of the week. Please use the main entrance or the northern entrance only.

2. Access to the Acacia washing lines will be cordoned off for the next two to three weeks as they are digging a trench for the cables to run in front of the washing lines. Once completed they will use this area to place the panel lift that will lift all the panels onto the roof. Residents who have washing that they need to dry are requested to bring their laundry down to reception. We will get the Evergreen Laundry to assist with hanging or tumble-drying washing for residents.

We apologise for the inconvenience and ask that you bear with us as we progress on this project.

Kind regards

**Wilma Swart**  
Village Manager
