

Circular 68-2024

12 August 2024

Dear Residents

Voltano metering maintenance notification:

As per the message send out by Voltano this morning about maintenance happening on site on Tuesday 13 August 2024.

Please note that this has been reschedule to Monday 19 August @10:00.

We do request that all electronics be plugged out before 10:00 am to make sure that things do not get damaged as we will be switching electricity on and off during the day.

You can simply switch all plugs off in your Distribution Board.

This is to prevent power surge damage to your television or computer etc.

We will inform you once we are done and when you are able to plug in your electronics again.

Thank you and kind regards

Warm Regards

Wilma Swart
Village Manager
