

Circular 089-2024

29 November 2024

Dear Residents,

WASTE AREA FENCING:

You might have noticed that we have removed the reed fencing around the waste area.

We are in the process of putting up new fences. We have poured concrete to put the holding support posts into the ground.

We realise that this makes the bins visible from the road and ask that you bear with us for the weekend. The rest of the work will continue and be completed on Monday.

Kind regards,

Wilma Swart
Village Manager
