

Circular: 003

03 February 2025.

Dear Residents,

CAPTURING THE FACINATING STORIES AND HISTORY OF OUR RESIDENTS.

Garry has a “passion project” where he believes we should be capturing and documenting the interesting stories of our residents.

We have such a wealth of fascinating residents from different walks of life with such rich history to tell. To this end Garry has purchased a microphone and a tri-pod light to document “on the couch with.....” discussion sessions with residents.

Please can I ask that residents advise me of who we should be doing these interviews with. You can nominate yourself or someone who you know in the Village whose history and stories you think should be captured. We are looking for interesting stories, tales of olden days, travels and adventure, achievements, sporting highs etc.

The “on the couch discussions” will be prepared and a set of questions put together for residents to prepare for the discussion before we do the actual interview.

Please send your nominations to me with some background to the story to tell.

We look forward to documenting these wonderful stories.

Warm Regards

Wilma Swart
Village Manager
