

# **CERAMIC WORKSHOP WITH YOLANDA ENGELBRECHT**

Yolanda has been teaching Ceramics for the last 15 years.

In her experience she has found that working with ceramics is very therapeutic and at the same time very rewarding. It is also a great way to destress, have fun and good to warm up stiff fingers.

Yolanda would like to offer a beginner's course (**Hand building & coiling work**) to the residents of Evergreen Noordhoek.

It would consist of making your item from scratch, painting and decorating. It will then need to go through two firing processes and then glazing.

Alternatively, just a BISC painting where she can bring Bisced pottery and you can paint it yourself.

**Date: Wednesday, 19 September 2018**
