Each box will be delivered with 2 free sponsored masks - Thank you Terri Sklar Frankental of Platinum Promotions.

This product is a simple, precooked (ready to eat), cost effective, safe, delicious & nutritious maize meal food (as per pic cleverly packaged like polony) and at a cost of R12.00 per unit (or R240/box) it is accessible and good value. R12 to feed a starving person!

Thank you all again for wanting to make a difference and Janene Levy Nates for creating and enabling a community of generosity and a platform for us to be able to make a difference to those who are battling in such terrible times. It matters ❤️

### Some Positive feedback:

*I AM TOTALLY OVERWHELMED BY THE INCREDIBLE RESPONSE TO MY POST! Thank you all so much for such an outpouring of generosity and kindness - it is so wonderful to be reminded of how much humanity and goodness there is in our country!*

*Brian McCurrach will be in touch with each of you who would like to purchase however, due to the wonderful demand it will be those who pay first who will receive their boxes first. He has ordered more stock arriving next week so there will be more than enough for everyone so each of you will be contacted as soon as possible!*

*I am sure that like me, there must be so many of you out there who are feeling heartbroken and helpless every time you are approached by a hungry person at a robot. It is literally keeping me awake at night. As lockdown and our economic and social crisis continues, and the weather grows colder every day, I find myself feeling completely overwhelmed by the desire to help the increasing numbers of homeless and starving people on our streets.*

*I heard about this incredible product last year and contacted Brian McCurrach. from A-Maize-Zing Pap for more information which just confirmed for me that this is a brilliant solution to help as many of these people as I can! My kids and I often make sandwiches which we keep in the car to hand out, but they don't seem to go far and I have been desperate for something that I can keep in the car permanently to hand out wherever possible.*

*We are all seeing and engaging with levels of poverty and destitution never experienced before, and my idea is that those of us who can afford to, carry a box (20 units) in their car and hands out a 500g unit to those in need. It will ensure that the person has a full stomach for the day!*

*"Without a doubt the Best Thing Ever needed by so many right now."*
