COVID-19 VACCINES UPDATE / FLU & PNEUMONIA VACCINE ORDERS:

Dear Residents,

I would like to inform you that we have submitted both resident and employee numbers to the Department of Health in an attempt to ensure that sufficient COVID-19 Vaccines be made available to us.

Health care workers will be the first group to be vaccinated, after which residents should follow in a few months' time. However, since no one is really certain of the timelines it would be wise to discuss this treatment with your general practitioner and family well in advance in order to decide whether you would like to be vaccinated or not.

In the meantime, we are ordering the annual flu vaccines as well as the Pneumovox (for prevention of pneumonia). Please can I ask that you contact Diana in the Clinic on **EXT: 2403** for Noordhoek Resident and **021 001 4312** for Lake Michelle Residents, to put down your name for either of these two vaccines in order for us to have numbers well in advance. Please also see the Corona Virus and Vaccine booklet received from the Department of Health.

Kind Regards,

Riaan Gouws
