

NATIONAL GIVE SOMETHING AWAY DAY

15 JULY 2021

The Evergreen Noordhoek 'Give something away day' Initiative

Giving improves our community and puts much-needed services and assistance within the reach of those who need it most. Whether we give financially or by offering our skills and services, we lift others up. While you may not think you have something to give away, you might be surprised. Tangible items like clothing, money, and food aren't always what's needed, though they may be the most common. We have therefore allocated 3 donations 'stations as follows:

Clothing/Blankets Donations - Considering the time of year and the extreme weather conditions we have experienced, there are less fortunate individuals that would benefit from these donations with much appreciation.

Monetary Donations – If you are unable to locate something to donate, monetary donations are welcome. These donations can be made to the Living Hope initiative for funding the manufacturing of sand bags to prevent the damage & loss caused by floods. (Banking details can be obtained from Management)

Non-perishable food items – The team at Living Hope is currently running a food drive in aid of putting together food parcels for Mandela Day (19th July). Donations received in this category will go to this drive.
