Dear Resident,

I am sure you have all noticed the massive increase in food prices over the past 3 months in particular.

We have been informed by FEDICS that due to the increased pricing in food, fuel, and utilities they have been pressurised by these costs to increase their selling prices.

Fedics has been operating in our village since the 1st of March 2023, although there has been some ups and downs, we believe on the whole it has been a positive relationship and improvement from our previous supplier.

As of 18 August, the following prices will be implemented:

Estate	Current	New Pricing	Percentage
Noordhoek			
Daily Meals	R 65.00	R 72.00	10%
Sunday Lunch (Lamb)	R 145.00	R 160.00	10%
Sunday Lunch	R 125.00	R 138.00	10%

Although this increase is drastic, it is necessary for Fedics to keep operating within the village at a high standard.

Thank you for your understanding and continued support.

Regards,

Stephan Lloyd

Village Manager
