**Memo 8/2018: Power cables to be connected for Phase 3**

Dear Residents

In order to get power to the new phase 3 homes, new power cables must be laid through the existing village to connect back to the existing village transformers. This will require driveways and gardens to be lifted for excavations and laying the cables.

The process will take 10 working days in total (weather dependant), as per the breakdown below:

1. 4 days for excavations
2. 1 day for installation of the cable and filling excavations
3. 5 days for re-compacting and re-installation of paving.

This process will start on Monday, 10 September 2018 and will directly impact houses 15,49,50,51,52,53, 54,55.

Other houses that may also experience work being done in the common area gardens are Houses 14,64,65 and 58.

The contractor is mindful of the needs and safety of our residents.

Thank you for your patience in this regard.

Kind regards,

Melanie Carstens  
VILLAGE MANAGER: EVERGREEN LIFESTYLE VILLAGE MUIZENBERG
