

Dear Valued Residents

A business update

Change is the only constant. Our business is growing and thus necessitates change on a regular basis. To this end, Melanie Carstens has decided to take on a new challenge as Social Worker and Care Manager. I am very excited to see Melanie apply her passion and skill set to this new role that will play a pivotal part in the role out of Evergreen Care. She will be very much involved across all our Evergreen Villages and will interact with residents daily. Her new role is effective from Monday 15 July, she will spend next week in Evergreen Muizenberg to handover and say farewell to her village residents.

Derek Drew will replace her as Village Manager effectively 15 July. Derek has been a valuable part of the Operations Business for the past 4 years and his experience in hospitality management will be extremely valuable to successfully manage our largest village. He has a great team around him and I am confident that he will continue to grow the village. I would like to personally thank Derek for his support to me over the past 6 months.

Please join me in wishing both Melanie and Derek all the best of luck in their new roles and I trust you will show your continuous support.

Have a great weekend.

Garry Reed

Managing Director
