

4 November 2020

Dear resident,

COVID INFECTION

It is unfortunate that we advise you of a resident who has tested positive for the Covid-19 virus in our village.

Please know that all the necessary protocols are in place and the resident in question has already been in self-isolation for the last four days, while waiting on the test result.

We suggest that, unless completely necessary, keep all social gatherings to a complete minimum, including dining in the Bistro.

Please remember to continue wearing your face masks, practice the 1.5m social distancing and to sanitize and / or wash your hands regularly.

We will keep you up to date on the situation.

Keep safe

Regards

Kim

Assistant Village Manager
