# EVENT CALENDAR

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25

A man pushes his car to a hotel and tells the owner he is bankrupt. WHY?  
*He is playing monopoly.*

I left my campsite, and hiked south for 3 miles. Then I turned east and hiked for 3 miles. I then turned north and hiked for 3 miles; at which time I came upon a bear inside my tent eating my food! What colour was the bear.  
*White. The only place you can hike 3 miles south, 3 miles east, then north 3 miles and end up back at your starting point is the North Pole. Polar bears are the only bears that live at the North Pole, and they are white.*

A sundial has the fewest moving parts of any timepiece. Which has the most?  
*An hourglass – it has thousands of grains of sand.*

An Arab sheik is old and must leave his fortune to one of his two sons. He makes a proposition: Both sons will ride their camels in a race, and whichever camel crosses the finish line LAST, will win the fortune for its owner. During the race, the two brothers wander aimlessly for days, neither willing to cross the finish line. In desperation, they ask a wise man for his advice. He tells them something, then the brothers leap onto the camels and charge towards the finish line. What did the wise man say?  
*The rules of the race were that the owner of the camel that crosses the finish line last wins the fortune. The wise man simply told them to switch camels*

Paul's height is six feet, he's an assistant in a butcher's shop and wears size 9 shoes. What does he weigh?  
 Meat

You're escaping a maze, and there are three doors in front of you. The door on the left leads to a pit of lava. The door in the centre leads to a room filled with deadly gas. The door on the right leads to a lion that hasn't eaten in 3 months. Which door do you choose?  
 The door on the right. A lion that hasn't eaten in three months would be dead.

What has cities, but no houses, forests but no trees, and water but no fish?  
 A Map.
